Welcome to this great home! When you walk in you are welcomed to a great room with a stone fireplace and hearth. The tiled floor is easy to keep clean. There is an eat in area that has space for your dining table and chairs. The updated kitchen has a built in microwave, a smooth top stove and a built in dishwasher. Freshly painted cabinets and a large pantry. The additional recreation room was once a garage but now offers an additional liveable space with built in cabinets. It is heated and cooled. The many windows offer a private view of the large fenced in back yard. There is a window seat in the eat in area of the kitchen with additional storage. The three bedrooms are off of the hallway with one bedroom having a tile floor and the other two carpet. The master suite is a good size. A laundry room is conveniently located near the bedrooms. There are two storage sheds in the back yard, one of which has electricity. The roof was replaced 2015. Both the driveway and front patio was poured in 2018. The house is also wired for an alarm system. The house is on a septic tank and it is under a termite bond. Call me today for your personal tour of this great home!
